

# Tall Timbers Fire Ecology Conference 21st Proceedings

## Fire and Forest Ecology: Innovative Silviculture and Vegetation Management

### Table of Contents

Acknowledgments (p. ix)

Preface (p. x) W. Keith Moser, Tall Timbers Research Station

Biographies of Keynote and Banquet Speakers (p. xi-xii) W. Keith Moser, Tall Timbers Research Station

Fifth E.V. Komarek, Sr. Memorial Fire Ecology Lecture. Global Transitions in Fire and Fire Management: Retrospectives and Perspectives (p. 1) Johann G. Goldammer, Max Planck Institute for Chemistry

Banquet Speech. Honey, I Think I Shrunk the Drip Torch! (p. 10) Bob Izlar, University of Georgia

#### FOREST ECOLOGY

Perspectives on Using Prescribed Fire to Achieve Desired Ecosystem Conditions (p. 12) James M. Vose, U.S. Department of Agriculture, Forest Service

Long-term Effects of Biennial Prescribed Fires on the Growth of Loblolly Pine (p. 18) William D. Boyer, U.S. Department of Agriculture, Forest Service

Plant Succession and Community Restoration Following Felling and Burning in the Southern Appalachian Mountains (p. 22) Barton D. Clinton and James M. Vose, U.S. Department of Agriculture, Forest Service

Age and Stand Structure of Old-Growth Oak in the Florida High Pine (Abstract) (p. 30) Cathryn H. Greenberg and Robert W. Simons, U.S. Department of Agriculture, Forest Service

Maintenance of a Vegetative Fuel Break at Arcadia National Park, Main (Abstract) (p. 30) Mark A. Herberger, University of Massachusetts

Thirty-Five Year Results from the Stoddard Fire Plots: A Study of Fire Frequency in the Red Hills of North Florida and South Georgia (Abstract) (p. 31) Sharon M. Hermann, Tall Timbers Research Station

Understory Plant Community Response to Season of Burn in Natural Loblolly Pine Forests (p. 32) John S. Kush and Ralph S. Meldahl, Auburn University, and William D. Boyer, U.S. Department of Agriculture, Forest Service

Herbaceous Diversity and Spatial Pattern in Loblolly Pine Communities: A Comparison of Natural Stands and Plantations (Abstract) (p. 40) Randall S. Mejeur, University of Georgia; and Joan L. Walker and Brian P. Van Eerden, U.S. Department of Agriculture, Forest Service

Fuel Loads and Overstory Conditions at Los Alamos National Laboratory, New Mexico (p. 41) Brian O. Oswald, Stephen F. Austin State University; Randy G. Balice, Los Alamos National Laboratory; and Kelly B. Scott, Stephen F. Austin State University

Disturbance History of the Tanana River Basin in Alaska: Management Implications (p. 46) James S. Roessler, U.S. Department of the Interior, Bureau of Indian Affairs, and Edmon C. Packee, University of Alaska Fairbanks

Effects of Fire Injury on Water Relations of Ponderosa Pine (p. 58) Kevin C. Ryan, U.S. Department of Agriculture, Forest Service

Miller Creek: Ecosystem Recovery in a Western Montana Forest 30 Years after Prescribed Burning and Wildfire (p. 67) Jonalea R. Tonn, U.S. Department of Agriculture, Forest Service; Martin F. Jurgensen and Glenn D. Mroz, Michigan Technological University; and Deborah S. Page-Dumroese, U.S. Department of Agriculture, Forest Service

A Portable Burn Device for Conducting Fire Effects Studies (Abstract) (p. 74) Brian P. Van Eerden and Joan L. Walker, U.S. Department of Agriculture, Forest Service

An Experimental Approach to Assess the Effect of Corridor Width on Fire Movement Across North Florida Landscapes (Abstract) (p. 74) Karen A. Whitney and Larry D. Harris, University of Florida

The Use of Prescribed Fire to Accomplish Resource Management Objectives by Increasing the Production and Diversity of Plant Communities (Abstract) (p. 75) James K. Wolf and Gary Bingham, U.S. Department of the Interior, Bureau of Land Management

## SOILS

Fire Ecology and Use in Relation to Boreal Forest Ecosystem Structure and Function (p. 76) Michael G. Weber, Canadian Forest Service

Fire Impacts on Forest Soils: A Comparison to Mechanical and Chemical Site Preparation (p. 85) Daniel G. Neary, U.S. Department of Agriculture, Forest Service; and Leonard F. DeBano and Peter F. Ffolliott, University of Arizona

Characteristics of Soils in an Oak-Dominated Forest Subject to Long-Term Prescribed Fires in Franklin County Tennessee (p. 95) Debra H. Phillips, Oak Ridge National Laboratories; and John E. Foss, Cynthia A. Stiles, John S. Wah, and Richard M. Evans, University of Tennessee

## RESTORATION

Restoration of Ponderosa Pine Ecosystems: Concepts and Principles (Abstract) (p. 103) W. Wallace Covington, Margaret M. Moore, and Peter Z. Fule, Northern Arizona University

Implementing the Expanded Prescribed Fire Program on the Gila National Forest, New Mexico: Implications for Snag Management (p. 104) Paul F. Boucher, William M. Block, Gary V. Benavidez and L.E. Wiebe, U.S. Department Of Agriculture, Forest Service

Sand Pine Scrub Vegetation Response to Two Burning and Two Non-Burning Treatments (p. 114) Richard E. Roberts, Florida Department of Environmental Protection, and Anne C. Cox, Florida International University

Fire Suppression and the Federal Wildland Fire Management Policy in Threatened and Endangered Species Habitat (Abstract) (p. 125) George Sheppard, U.S. Department of Agriculture, Forest Service

Restoration of Mixed-Oak Forests in Southern Ohio with Prescribed Fire (Abstract) (p. 126) Elaine Kennedy Sutherland, U.S. Department of Agriculture, Forest Service

#### HERBICIDES

Fire "and" Herbicides? Fire "or" Herbicides? What are the Issues? (p. 127) Shepard M. Zedaker, Virginia Polytechnic Institute and State University

Restoring Longleaf Pine-Wiregrass Ecosystems: Low-Rate Hexazinone Application Enhance Effects of Prescribed Fire (Abstract) (p. 131) Dale G. Brockway and Kenneth W. Outcalt, U.S. Department of Agriculture, Forest Service

Fire and Pesticides: A Review of Air Quality Considerations (p. 132) Parshall B. Bush, University of Georgia; and Danie G. Neary and Charles K. McMahon, U.S. Department of Agriculture, Forest Service

The Relative Effectiveness of Prescribed Burning and Herbicide Application for Controlling Fennel on Santa Cruz Island, California (Abstract) (p. 137) Robert C. Klinger, The Nature Conservancy, and Bob Brenton

Imazapyr-Fire Interactions for Bobwhite Quail Habitat Enhancement (Abstract) (p. 138) Mark W. Thomas, American Cyanamid Company

#### WILDLIFE

Fire Regimes and the Management of Biodiversity in Temperate and Tropical Eucalyptus Forest Landscapes in Australia (p. 139) Richard J. Williams, CSIRO Wildlife and Ecology, and Ross A. Bradstock, New South Wales National Parks and Wildlife Service

Effects of Wildfire on Densities of Secondary Cavity-Nesting Birds in Ponderosa Pine Forests of Northern Arizona (p. 151) Jill K. Dwyer and William M. Block, U.S. Department of Agriculture, Forest Service

Effect of Time Elapsed After Prescribed Burning in Longleaf Pine Stands on Potential Prey of the Red-Cockaded Woodpecker (Abstract) (p. 157) James L. Hanula and Kirsten C. New, U.S. Department of Agriculture, Forest Service

Prescribed Burning: Observations on the Interaction of Wildlife with Fire in State Parks of Southwestern Florida (p. 158) Terry Hingtgen, Florida Park Service

Effects of Wildfire Severity on Small Mammals in Northern Arizona Ponderosa Pine Forests (p. 163) Sean C. Kyle and William M. Block, U.S. Department of Agriculture, Forest Service

Movements and Survival of Bachman's Sparrows in Response to Growing-Season Prescribed Burns in South Carolina (Abstract) (p. 169) Bradford D. Seaman, University of Georgia, and David G. Krementz, Patuxent Research Center

## FIRE ECONOMICS AND POLICY

Policy Issues Facing Prescribed Burning Today (Abstract) (p. 169) Frank T. Cole, J.W. Jones Ecological Research Center

Influences on Prescribed Burning Activity in the National Forest System (p. 170) David A. Cleaves, Terry K. Haines, and Jorge Martinez, U.S. Department of Agriculture, Forest Service

Occurrence of Fire in Longleaf Pine Stands in the Southeastern United States (p. 178) Kenneth W. Outcalt, U.S. Department of Agriculture, Forest Service

## FIRE AND SILVICULTURE

Recent Advances in the Silvicultural Use of Prescribed Fire (p. 183) David H. Van Lear, Clemson University

Methods for Restoring Long-Unburned Florida Oak-Saw Palmetto Scrub Using Mechanical Cutting and Prescribed Burning (Abstract) (p. 190) Shannon R. Boyle and Paul A. Schmalzer, Dynamac Corporation, and Frederic W. Adrian, U.S. Department of the Interior, Fish and Wildlife Service

Using Prescribed Fire to Regenerate Table Mountain Pine in the Southern Appalachian Mountains (p. 191) Patrick H. Brose and Thomas A. Waldrop, U.S. Department of Agriculture, Forest Service

A Shelterwood-Burn Technique for Regenerating Productive Upland Oak Sites in the Piedmont Region (Abstract) (p. 197) Patrick H. Brose, U.S. Department of Agriculture, Forest Service; David H. Van Lear, Clemson University; and Patrick D. Keyser, Virginia Department of Game and Inland Fisheries

The Role of Fire, Canopy Gaps, and Deer Browsing in Forest Regeneration in Second-Growth Stands: Pretreatment Results (Abstract) (p. 197) Rachel J. Collins and Walter P. Carson, University of Pittsburgh

Restoring Fire to Red and White Pine-Dominated Ecosystems in the Lake States: History and Ecological Responses (Abstract) (p. 198) Donald I. Dickmann, Michigan State University

Fire as a Silvicultural Tool to Improve Southern Appalachian Pine-Hardwood Stands (Abstract) (p. 198) Katherine J. Elliott, James M. Vose, and Wayne T. Swank, U.S. Department of Agriculture, Forest Service

Exploring Methods for Maintaining Old-Growth Structure in Forests with a Frequent-Fire History: A Case Study (p. 199) Stephen A. Fitzgerald, William H. Emmingham, Gregory M. Filip, and Paul T. Oester, Oregon State University

Practice of Silviculture and Vegetation Management on Industrial Timberlands (p. 207) David W. Gerhardt, Westvaco Corporation

Prescribed Fire and Selective Harvesting: An Evaluation of Ecological Forest Management in the Red Hills Region of Florida and Georgia (Abstract) (p. 211) Stephen T. Lindeman, The Clinch Valley Forest Bank

Flatwoods Restoration on the St. Johns River Water Management District, Florida: A Prescription to Cut and Burn (p. 212) Steven R. Miller and William R. Bossuot II, St. Johns River Water Management District

Ecological Restoration of an Old-Growth Longleaf Pine Stand Utilizing Prescribed Fire (p. 216) J. Morgan Varner, III, John S. Kush, and Ralph S. Meldahl, Auburn University

Conference Participants (p. 220)

List of Reviewers (p. 225)
